

24-VOLT INVERTER/ CHARGER

Xantrex, Vancouver, Canada, presents its 24-volt Freedom SW inverter/ charger designed for both OEM and aftermarket applications, which Xantrex says is equipped with advanced features to meet the requirements of larger 24-volt power systems in RVs and boats. Xantrex says that, operating at full output in a wide temperature range, the Freedom SW features a high surge rating complemented by temperature-compensated, multi-stage charging. The Freedom SW is available in two models, 2,000 watt/ 50 amp and 3,000 watt/ 75 amp, both of which feature generator support mode, and which meet UL458, CSA and FCC Class B requirements.

NEW, SINGLE-USE HOLDING TANK TREATMENT

ProPack Packaging. St. Louis, introduces a new 4-ounce, single-use, six-pack box of its popular holding tank treatment for retail sales. Scheduled to debut at the RVIA Show in Louisville, ProPack says the new box has a great billboard presence, which draws customers to the shelf, increasing sales. ProPack says it builds on Kronen's position as the premium brand in the segment, using a purple and gold "royalty" color scheme to reinforce Kronen's signature message to customers who want to buy the best in environmentally friendly sanitation products.
