

XANTREX APP NEW FEATURE RELEASE

System history charts, full device naming, and more.

Release	Xantrex App Update – V 1.6.1
Release Date	August 27, 2026
Platforms	iOS and Android
Audience	App owners, installers, and service technicians
Compatible Products	XanLink, MPPT 30 PRO, MPPT 60 PRO
Support	Contact Xantrex support if you have any questions

WHAT'S NEW

Feature	Details	Audience	What device
Measurement Data Charts	The Trace tab now graphs SOC, voltage, current, and other readings in real time, plus up to 60 days of history.	All Users	XanLink and MPPT PRO Series 30A & 60A
Device Name Customization	Custom naming now works on all device types, not just select ones. Users can rename any device from “My Devices.”	Device Owners	XanLink and MPPT PRO Series 30A & 60A
Application Menu	A new header menu gives one-tap access to Support, FAQ, and Version info.	All Users	XanLink and MPPT PRO Series 30A & 60A
MPPT Improvements	MPPT PRO Series (30A and 60A) add mobile-phone time sync and configurable LFP absorption exit criteria.	Installers & Service Teams	MPPT PRO Series 30A & 60A
XanLink Updates	Adds 36V system support, two new history fields (Deepest Discharge, Time Since Last Full Charge), and a more accurate Remaining Time estimate.	Device Owners & Installers	XanLink
Firmware OTA, Manual URL Upgrade	Universal and MCU2 firmware can now be installed by entering a URL directly, for service teams applying a specific build outside the normal update flow.	Installers & Service teams/ Advanced Users	XanLink and MPPT PRO Series 30A & 60A

This update is rolling out to all Xantrex app users on iOS and Android beginning August 27, 2026. No action is required for users with automatic app updates enabled.
